

Tvheadend - Feature #3774

Table rewriting of service id to always be 1

2016-05-04 10:37 - danny skjodt

Status:	Fixed	Start date:	2016-05-04
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	4.4		
Description			
<p>Would be nice with a section under the rewriting options you could enable to make tvheadend rewrite service id's to 1 on all pass output, that would make it a lot easier to handle adding streams from one tvheadend to another, if source changes service id for a certain channel, of if you change source for a channel, it should still work where it was cascaded to from there.</p>
